CONTRACT

Taffard Fabrics has one of the strongest track records in the industry for contract business. We manufacture inherently fire retardant fabrics and can also convert our designs or existing fabrics to pass contract regulations. As in all areas, we are mindful of price requirements without sacrificing quality on any product. We offer an extensive sampling program we work hand in hand with design firms and to produce custom designs in the time line set forth. We are proud to include in our list of top-tier clients Starwood Hotels, Four Seasons Hotels, Ritz Carlton Hotels, Trump Hotels, and MGM. In addition, we have worked with many country clubs, theaters, cruise ships and museums throughout the world and are well aware of the procedures and regulations of all such environments. We are able to ship directly from overseas factories to client site to minimize lead-time and freight cost
