Why We Love This Fabric

France is a drapery satin with a quiet, liquid sheen: the surface catches light softly rather than flashing it, so folds read as gentle gradations of the same color.

The Color, Up Close

Mid, cool teal with a soft teal undertone.

Measured by spectrophotometer on the fabric itself. Photos are for illustration only; screens and lighting shift color. Specifying? Order a free sample. Ready to specify? Ask your sales representative for a CFA and a quote.
